

This map shows how the principal documents of the Cloudax Information Security Management System interlock. POL-001 sits at the apex; ISMS-SOA-001 and REG-RISK-001 are the bidirectionally-linked operational core; PLAN-IRP-001 and PROG-AUDIT-001 are the principal operational plans. Subordinate policies, plans, programmes and registers extend the framework. Document references in each ISMS document point to entries in this map.

TIER 1 — APEX POLICY

POL-001 • Version 1.0

Information Security Policy

CEO-approved • the framework all other ISMS documents implement

TIER 2 — CORE OPERATIONAL DOCUMENTS (BIDIRECTIONALLY LINKED)

ISMS-SOA-001 • Version 4.0 Statement of Applicability 93 Annex A controls — applicability, justification, status, document reference	REG-RISK-001 • Version 1.0 Risk Register 30 risks — score, treatment, owner, controls applied
---	--

TIER 3 — OPERATIONAL PLANS & PROGRAMMES

PLAN-IRP-001 Incident Response Plan v1.0 • runbooks A-F	PLAN-BCP-001 Business Continuity Plan planned	PLAN-DRP-001 Disaster Recovery Plan planned	PROG-AUDIT-001 Internal Audit Programme v1.0 • 3-year cycle	PROG-COMP-001 Compliance Monitoring Schedule planned	PROG-TRAIN-001 Awareness Training Programme planned
--	--	--	--	---	--

TIER 4 — SUBORDINATE POLICIES & STANDARDS (24)

POL-002 Access Control	POL-003 Acceptable Use	POL-004 Information Classification	POL-005 Information Transfer	POL-006 Supplier Security	POL-007 Cloud Services
POL-008 IP & Software Licence	POL-009 Records Retention	POL-010 Privacy	POL-011 Disciplinary	POL-012 Remote Working	POL-013 Removable Media
POL-014 Vulnerability Management	POL-015 Configuration Management	POL-016 Data Masking	POL-017 Data Leakage Prevention	POL-018 Backup	POL-019 Logging
POL-020 Monitoring	POL-021 Software Installation	POL-022 Network Security	POL-023 Cryptographic Controls	POL-024 Secure Development Lifecycle	POL-025 Change Management

TIER 5 — PROCEDURES & REGISTERS (SELECTED)

PRO-024 Breach Notification	PRO-005 Joiner Mover Leaver	PRO-027 Event Reporting	REG-IAR-001 Asset Register
REG-COMP-001 Compliance Obligations	REG-ROPA-001 Record of Processing	REG-DPIA-001 DPIA Register	REG-AUTH-001 Authority Contacts
REG-CAR-001 Corrective Actions			

HOW TO READ THIS MAP

- Tier 1 establishes the framework; Tier 2 operationalises it; Tiers 3-5 give it day-to-day effect.
- The SoA and Risk Register are bidirectionally linked: SoA shows which controls treat which risks; Register shows which risks are treated by which controls.
- Document references in every ISMS document point to entries in this map. Annex A of the SoA contains the full document inventory.
- Five documents are issued at v1.0 / v4.0 in April 2026: POL-001, ISMS-SOA-001, REG-RISK-001, PLAN-IRP-001 and PROG-AUDIT-001. The remainder are planned, with status "Planned" recorded in the SoA.
